

PRODUCT GUIDE

2023 - 2024

TRUST provides sustainable, solution-based innovative products to global commercial market. Provide efficient and comprehensive solutions from five aspects: waste management, cleaning products, material handling, catering services, and safety products. TRUST is worthy of your trust.

**No matter what you clean,
we are the brand you can**

Trust Commercial Products

Innovative Solutions

Our innovative products are designed to meet all of your needs and to enhance productivity in your workplace.

Total Quality Control

Our products have been rigorously tested and performed with industry-leading durability.

ENVIRONMENTAL SUSTAINABILITY

A Green Future

At TRUST we strive to be environmentally friendly and stand by strict environmental standards and business practices. We align with environmental protection agencies and organizations in the pursuit of environmental sustainability. Our research and product innovation has led to the effective reduction of our carbon footprint in the manufacturing of commercial products.

Our vision is to provide comprehensive working solutions of high quality. By helping people in workplaces all around the world our products improve lives and help protect the environment. Environmental sustainability and environmental responsibility are at the core of our operations.

Creation of safe, sustainable products - At Trust we design, manufacture and market green products with environmentally friendly practices in place to protect, conserve, and sustain the world's natural resources.

Incorporating environmental principles into our partnerships – Our green vision leads us to collaborate in our business partnerships in seeking a green future.

We will continue to keep our clients up-to-date with our efforts and progress.

LEGEND

Assembly is required.

Hands free, reduce the risk of exposure to dirt.

Motorized with intelligent control system.

Color-coded cleaning system.

Please select the proper color-coded equipment depending on the area to prevent cross-contamination.

Blue: For general cleaning, such as office and lobby.

Yellow: For general cleaning of the bathroom area.

Red: For cleaning high cross-contamination areas, such as toilet and bathroom.

Green: For cleaning food service facilities, such as diningroom, kitchen, and canteen.

UV absorber is added to extend the service life in outdoor applications.

BPA free

Eastman Tritan copolyester does not contain the toxic chemical bisphenol-A (BPA) and its use can help to increase food safety.

Studies have shown that Bisphenol-A is harmful to human health. Components used in plastics, such as bisphenol-A (BPA) are released from plastic products, and are known as endocrine-disrupting compounds (EDCs) owing to their ability to modulate the endocrine system.

Cadmium free

Exposure to cadmium is known to be toxic, and is linked to an increased risk for cancer as well as a number of kidney and liver afflictions.

Dishwasher safe

CERTIFICATES

ISO-international Organization for Standardization

ISO9001-2001 is an internationally recognized quality management system that provides:

1. Guidance for businesses that want to implement or improve quality systems within their business.
2. Benchmarks that customers can use to evaluate an organization's quality system.
3. Represents a commitment to continuous value improvement.

ISO 14000 is a family of standards to plan, implement, inspect and review environment management and operation system to enhance the environment protection:

1. Promote the implementation of environmental management regulations and systems.
2. Promote the improvement of environmental management within the business.
3. Promote the harmonious development of environment and economy.

ASTM Certification

ASTM F404 is the American Society for Testing and Materials' safety standard for evaluating a High Chair. TRUST youth seat has been approved in ASTM F404 testing.

ASTM F2285 is an American Society for Testing and Materials' safety performance specification that establishes performance requirements, test methods, and labeling requirements to minimize the hazards to children presented by Diaper Changing Tables for commercial use with children up to 22.7kg. TRUST baby changing station passed the ASTM F2285 testing.

QS Certification

Quality Safety. TRUST has been granted a QS production license certificate.

UL Certification

Underwriters Laboratory (UL) approved containers (1261/1262 /1263/1264) , up to UL94-2010 standard, while rated to be V0.

FDA Certification

Under regulations administered by the U.S. Food and Drug Administration(FDA), this product, as supplied by Eastman Chemical Company, may lawfully be used on the basis of 21 CFR 174.5(d)(5) as a component in the manufacture of repeated use food-contact articles as described in Food Contact Notification No.729. The finished food contact article containing this polymer is intended to contact all types of food at temperatures up to and including 100°C (for definitions of food types, refer to Tables 1 and 2 at website <http://www.fda.gov/Food/FoodIngredientsPackaging/FoodContactSubstancesFCS/default.htm>). This formulation contains a proprietary additive which complies with the regulations for indirect food additives published by the U.S. Food and Drug Administration. In addition, the general provisions for indirect food additives in 21 CFR 174.5 are applicable to the use of this product.

China Environmental Labeling

China Environmental Labeling Product Certification is the most authoritative certification of green products and environmental friendly products in China, to recognize the product quality and environmental performance and confirm that the products meet the national standards for environmental protection requirements on behalf of the government.

HACCP Certification

Hazard Analysis and Critical Control Points is a systematic method using principles (Food Hygiene Practices) for analyzing food process and determining the possible chemical, physical, and biological hazards within that process that should prevent any unsafe food from leaving the process.

NSF Certification

NSF (National Sanitation Foundation) is committed to standards development, product testing and certification services in the fields of public sanitation and security. It's a widely recognized leading global provider of public health and security certification.

ISTA-international Safe Transit Association

TRUST has ISTA-certified laboratory for testing and certification of transport packaging.

EU Certification

The EU issued directive 1935/2004 for substances in contact with food. The purpose of this directive is to ensure that materials and substances in contact with food directly or indirectly is safe to the consumers both in design and structure. The TRUST food storage box (3011/3012) has been proved safe by relevant EU tests.

TÜV Certification

TÜV is a security authentication marks which Germany TÜV specially made for components products. It has been widely accepted in Germany and Europe. The purpose of safety standards is to prevent household electrical products, mechanical products, automobile products causing the danger personal injury and property damage during the using process.

GS Certification

GS is the meaning of "German Geprüfte Sicherheit" (security certification).GS is recognized by European market as German security authentication marks, which based on German product safety(GPGS), and it is also a voluntary certification according to the European standard EN or German industrial standards DIN testing. TRUST multi-purpose draw ladder (6945/6946) passed GS testing.

Perfect Waste Management System

We provide a highly efficient, low-cost waste management system. Our products are made of high quality material with a sturdy structure to prolong their life.

Cost-Efficient

Our waste collection and transport solutions offer productivity gains - reducing the time taken for repetitive tasks.

Sustainable Development

All our plastic containers are 100% recyclable.

Multiple Solutions

We provide products of various sizes, colors and materials, designed to deliver practical waste solutions for diverse areas across the workplace.

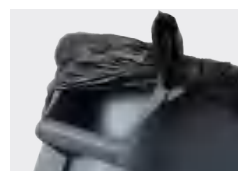

ALL-PURPOSE CONTAINERS

THOR® ROUND CONTAINERS

PRODUCT FEATURES:

1. All-plastic construction will not rust, chip, or peel; resists dents.
2. Ergonomic handles that are smooth and comfortable.
3. Reinforced rims increase strength and durability.
4. Comes with four trash liner grooves for easy attachment without the need to tie knots.
5. Four vent channels provide 50% less worker exertion when lifting a filled trash liner compared with a traditional container.
6. Bottom hand grips of 30 mm width assist in emptying.
7. Double-ribbed base increases stability and dragging capacity.

Ergonomic handles with trash liner grooves for easy attachment without the need to tie knots

Double-ribbed base with 30mm wide Bottom hand-grips

Reinforced rims increase strength and durability

Four vent channels provide 50% less worker exertion when lifting a filled trash liner compared with a traditional container

1637	THOR® Single Stream Recycling Top for 1013	57.2 × 10.0cm	N/A	BLUE, GRN	6

Strong, snap-on lids for secure, stable stacking

The arc-shape design is effective in preventing rainwater from accumulating

Foot fixing position, easy loading and unloading

Thor® Dolly (1819) can easily transport steel drums

THOR® DOLLIES

PRODUCT FEATURES:

1. Easy mobility and maneuverability of heavy loads.
2. Swivel castors offer easy mobility.
3. Attach trash containers with ease.
4. Sturdy structural foam construction won't rust, dent, chip, or peel.
5. 1819 can easily transport 1015 and steel drums.

Model	Description	Dimensions	Capacity	Color	Pack
1811	THOR® Dolly for 1010/1012/1013/1014/1015	46.4 × 16.8cm	N/A	BLA	2

THOR® ROLLOUT CONTAINERS

PRODUCT FEATURES:

1. Heavy-duty 20cm wheels allow easy mobility, even over steps or curbstone.
2. Attached hinged lid fits securely; swings back and locks.
3. Molded-in axle retainer adds strength.
4. Inset wheel position helps prevent damage to walls and doorways.
5. 1025 is rotomolded, designed for holding a large volume of refuse. Its one-piece structure offers extraordinary strength and durability.

1021

1025

Model	Description	Dimensions	Capacity	Color	Pack
1021	THOR® Rollout Container	72.4 × 59.4 × 92.7cm	190L	BLUE, GRAY, YEL, GRN, RED	2
1025	THOR® Rollout Container	69.7 × 93.4 × 121.4cm	360L	GRAY, RED	1

THOR® ROLLOUT CONTAINERS

PRODUCT FEATURES:

1. Suitable for various commercial environments.
2. Heavy-duty 20cm wheels allow easy mobility, even over steps or curbstone.
3. Hinged lids close tightly and can be locked when fully lifted to prevent swinging during transport.
4. Inset wheel position helps prevent damage to walls and doorways.
5. Ergonomic handle, more flexible control.
6. Smooth surface for easy cleaning.
7. Reinforced rims add strength and durability.
8. 1033 and 1034 are rotomolded, designed for holding large volume of refuse. Its one-piece structure offers extraordinary strength and durability.

THOR® STEP-ON ROLLOUT CONTAINERS

PRODUCT FEATURES:

1. Suitable for various commercial environments.
2. Hands-free operation improves work efficiency.
3. Heavy-duty 20cm wheels allow easy mobility, even over steps or curbstone.
4. Hinged lids close tightly and can be locked when fully lifted to prevent swinging during transport.
5. Non-protruding wheel position helps prevent damage to walls and doorways.
6. Ergonomic handle provides more flexible control.
7. Smooth surface for easy cleaning.
8. Reinforced rims add strength and durability.
9. Soft-close lid prevents noise effectively.
10. 1037 and 1038 are rotomolded, designed for holding large volume of refuse. Its one-piece structure offers extraordinary strength and durability.

1035

1037

Model	Description	Dimensions	Capacity	Color	Pack
1035	THOR® Step-On Rollout Container	52.0 × 66.3 × 94.0cm	120L	BLUE, GRAY, YEL, GRN, RED, BLA	1
1036	THOR® Step-On Rollout Container	62.1 × 72.8 × 100.5cm	190L	BLUE, GRAY, YEL, GRN, RED, BLA	1
1037	THOR® Step-On Rollout Container	64.5 × 76.0 × 115.0cm	240L	BLUE, GRAY, YEL, GRN, RED, BLA	1
1038	THOR® Step-On Rollout Container	72.7 × 94.9 × 117.0cm	360L	BLUE, GRAY, YEL, GRN, RED, BLA	1

THOR® STEP-ON ROLLOUT CONTAINERS WITH CASTORS

PRODUCT FEATURES:

1. Suitable for various commercial environments.
2. Hands-free operation improves work efficiency.
3. Heavy-duty 20cm wheels allow easy mobility, even over steps or curbstone.
4. Hinged lids close tightly and can be locked when fully lifted to prevent swinging during transport.
5. Ergonomic handle provides more flexible control.
6. Smooth surface for easy cleaning.
7. Reinforced rims add strength and durability.
8. Soft-close lid prevents noise effectively.
9. 1047 and 1048 are rotomolded, designed for holding large volume of refuse. Its one-piece structure offers extraordinary strength and durability.
10. Front swivel castors with brake enables enhanced maneuverability. Embedded castors are designed to avoid damage caused by collisions with walls and doorways.

Perfect Waste Sorting and Recycling Solutions

For collecting and sorting various types of waste, our large capacity bins can meet a multitude of needs across different workplaces.

Sturdy and Durable

Durable and crack-resistant, even under tough conditions both indoor and outdoor.

Sorting And Recycling Categories Are Easily Defined

Recycling lids and bins of different Colors can facilitate the recycling of recyclable paper, metal, bottles and other recyclable materials, making classification and recycling more convenient and efficient.

THOR® RECYCLING CONTAINERS

PRODUCT FEATURES:

1. Easy to maneuver.
2. Can serve as central collection containers or shipping containers, reducing the amount of handling.
3. Couple with dollies to transport recyclable waste with ease and efficiency.
4. Dollies are sold separately.
5. All containers come standard with "Recycle" symbols.

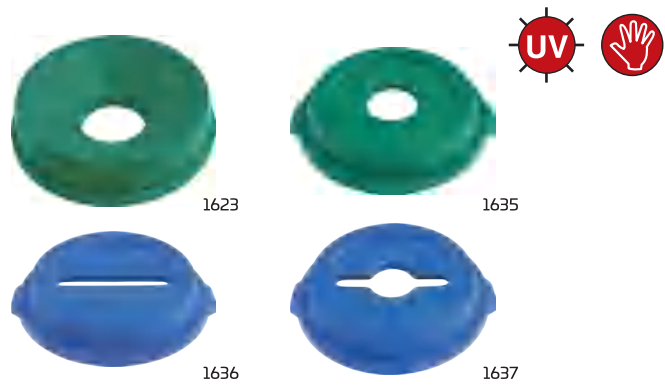

Model	Description	Dimensions	Capacity	Color	Pack
1016	THOR® Round Recycling Container	49.0 × 57.0cm	75L	BLUE	6

RISTON® OUTDOOR RECYCLING CONTAINERS

PRODUCT FEATURES:

1. Large-capacity recycling container for any outdoor environment.
2. Attractive with a side-door design.
3. Durable molded construction with smooth surfaces, easy to clean.
4. Fixed device adds stability and safety for outdoor use.
5. Can be fixed to the ground with screws.
6. Built-in garbage bag holder, conveniently holds the garbage bag in place.
7. Optional hard inner bins, suitable for storing sharp and heavy waste.

MEDICAL WASTE MANAGEMENT

WASTE

THOR® MEDICAL CONTAINERS

PRODUCT FEATURES:

1. Suitable for hospitals, clinics and other medical waste recycling applications.
2. Tough and durable all-plastic construction, reusable and puncture-resistant.
3. Seamless body ensures it is leakage-proof.
4. Smooth surfaces allow for easy cleaning and sterilizing.
5. Non-slip top allows for easy stacking.
6. Easy-grip handles assist with easy moving.
7. Hot stamped logos on yellow radiation-proof body are durable and non-fading.

DECORATIVE WASTE CONTAINERS

Multiple Solutions

Our range includes products of various sizes, colors and materials and offers practical waste solutions for any area of the workplace.

Sustainable Development

Good product design, sound recyclability and durability, and use of environmentally friendly materials define our efforts towards environmental sustainability.

Smarter Decorative Receptacles

We provide customers with comprehensive, high efficiency and cost-effective waste solutions. Trust decorative receptacles offer a modern design, high quality surface treatment and long lasting performance both indoors and outdoors.

ROCKFACE® CONTAINERS WITH ASHTRAY TOP

PRODUCT FEATURES:

1. Suitable for the entrance to a building, hall or shopping center.
2. Comes with a wide opening for easy disposal of refuse.
3. The ashtray is a metal sand plate.
4. Optional faceplate available - sold separately.

ROCKFACE® CONTAINERS WITH DRUM-TYPE TOP

PRODUCT FEATURES:

1. Fit for applications in catering centers, theater halls or shopping centers.
2. Funnel-opening assists easy insertion of waste.
3. The hinged top can be tied up with a belt for easy access to contents.
4. Optional faceplate available - sold separately.

ROCKFACE® CONTAINERS WITH FUNNEL-TOP

PRODUCT FEATURES:

1. Fit for applications in catering centers, theater halls or shopping centers.
2. Funnel-opening assists easy insertion of waste.
3. The hinged top can be tied up with a belt for easy access to contents.
4. Optional faceplate available - sold separately.

ROCKFACE® FACEPLATES

PRODUCT FEATURES:

1. Clean and shiny faceplate for display of information and advertisement.
2. The dent-resistant faceplate supported by ABS is durable, resistant to tough weather conditions.

ORDERING PROCEDURE

Step 1: Select the container size and model

Step 2: Select decorative faceplates (four plates for each container)

ROCKFACE® DECORATIVE CONTAINERS

PRODUCT FEATURES:

1. Ideal for the use in building entrances, lobbies and shopping malls.
2. Made of heavy-duty, hot-dip galvanized fireproof steel.
3. Weather-resistant top withstands harsh weather.
4. The top has openings on four sides for easy disposal of refuse.
5. An ashtray is attached.
6. Levelers facilitate use on uneven surfaces.
7. Includes a leak proof inner container made from galvanized steel.
8. User assembly is not required.

Convenient **hinged top** allows easy access to remove barrel

Ashtray receptacle isolates cigarette butts and prevents the chance of fire

SVELTE® RIM CADDIES AND DOLLIES

PRODUCT FEATURES:

1. The combined cleaning system is composed of Svelte® trolley, Svelte® trash can and Svelte® tool assembly rack, which is convenient and efficient to collect garbage and carry cleaning tools.
2. The slim rectangle shape is space efficient and fits tight spaces.
3. Convenient for sorting collection.
4. Svelte® Dollies (1825), sturdy structural foam construction won't rust, dent, chip, or peel; 7.5cm non-marking castors - prevent floor marking and reduce post-job clean up.
5. When used with the connection device (1826), the two trolleys can be firmly connected together to improve work efficiency.

Rim Caddies (1824) hold a safety sign

Rim Caddies (1824) can secure two garbage bags on the rim for efficient classification collection

Rim Caddies (1824) elastic clamp can hold broom and mop handles with diameter 2.2 to 2.9cm

Dolly Connectors (1826) connects several dollies for collection and transportation purposes

5062

5063

5064

INTELLIGENT CONTROL SYSTEM

The system can automatically identify forward or backward; when the cart is pushed, it will move forward automatically, and when the cart is pulled, it will move backward automatically.

After the cart starts to walk, you only need to hold the handle with both hands to control the direction without any external force to pull or push; it will stop when you leave the handle.

When encountering obstacles (including human body), the system can recognize the resistance, and the cart will automatically stop moving; Ensure personal and property safety.

CLEANING CART COMBINATION

SVELTE® RIM CADDIES AND DOLLIES

PRODUCT FEATURES:

1. The combined cleaning system is composed of Svelte® trolley, Svelte® trash can and Svelte® tool assembly rack, which is convenient and efficient for collecting garbage and carrying cleaning tools.
2. The slim rectangle shape is space efficient and suitable for tight spaces.
3. Convenient for sorting collection.
4. Svelte® Dollies (1825) offer sturdy structural foam construction that won't rust, dent, chip, or peel; 7.5cm non-marking castors reduce the post-job clean-up.
5. When used with the connection device (1826), the two trolleys can be firmly connected together to improve working efficiency.

Optional SVELTE® Waste Container (1220)

Rim Caddies (1824) can carry spray bottles, safety signs, sponge cleaning blocks, wind-proof dustpans, brushes and other cleaning supplies

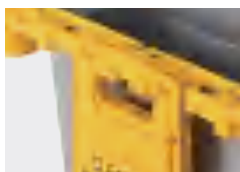

Hooks (1827) can hold various cleaning tools like brushes and scrapers

7.5cm non-marking castors

1824/1213/1825

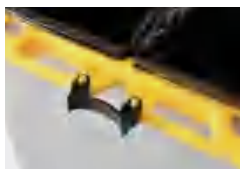

1825

Rim Caddies (1824) holds a safety sign

Rim Caddies (1824) can secure two garbage bags on the rim for efficient classification collection

Rim Caddies (1824) elastic clamp can hold broom and mop handles with diameter 2.2 to 2.9cm

Dolly Connectors (1826) connects several dollies together for collection and transportation purposes

WET MOPS

WET MOP SELECTION GUIDE

WET MOPS

Various criteria can apply when selecting the correct wet mop. Please follow the selection guide given here to select the best wet mop for your floor maintenance.

Mops for General Cleaning

Mops with excellent absorbency, easy water release and high durability are preferred. If conditions permit, washable mops are your best choice. Synthetic yarn, rayon and blend mops with looped-end and tailband are most washable and provide an optimized performance.

Finish Mops

Mops with excellent absorbency, and easy water release are preferred. In addition, looped-end and tailbanded mops cover more floor area per stroke and reduce streaking.

What is more important for you?

Launderability and Durability:

Launderability is the number of times a mop can be washed and dried before it is worn out. Durability is indicated by the length of time that passes before it is necessary replace a worn mop. Mops made of microfiber, rayon and blend have the highest durability.

Microfiber Synthetic Blend Rayon

Absorbencies:

Absorbency means the capability to retain liquid. Higher absorbency means a shorter time to dry the floor, higher working efficiency and safer operation. Microfiber, rayon and cotton mops offer the best absorbency.

Microfiber Rayon Cotton Blend

Water-release Performance:

Water-release performance means the mop's capacity to release water on to the floor or during wringing. Stronger water-release performance means a shorter time is needed to wring the mop and effectively release the cleanser onto the floor. Microfiber, rayon and synthetic fiber mops have the strongest water-release capability.

Microfiber Rayon Synthetic Blend

Cleaning Performance:

It indicates the capability to remove dust and dirt from the floor.

Microfiber Rayon Synthetic Blend

DUST MOP SELECTION GUIDE

SELECTING THE BEST CLEANING TOOLS FOR YOUR FACILITY:

The guide below provides some key factors to consider when selecting the most suitable dust mop for your floor.

Facility	Best	Better	Good
Hotels	Microfiber Dust Mop	Synthetic Dust Mop	Blended Dust Mop
Catering	Microfiber Dust Mop	Synthetic Dust Mop	Blended Dust Mop
Health Care	Microfiber Dust Mop	Blended Dust Mop	Synthetic Dust Mop
Industrial and Commercial	Microfiber Dust Mop	Synthetic Dust Mop	Blended Dust Mop
School	Microfiber Dust Mop	Synthetic Dust Mop	Synthetic Dust Mop
Office Building	Microfiber Dust Mop	Synthetic Dust Mop	Blended Dust Mop

GENERAL DUST MOPPING:

Durable dust mops with high dust pick-up capacity are preferred. If permitted, washable dust mops are the most cost-efficient choice. Twisted loop mops, reinforced stitching and easily attachable backing units are factors that contribute to superior cleaning and performance.

TWISTED LOOP END

For optimal cleaning of dust and dirt. Twisted loops resist snagging, fraying or unravelling while laundering.

CUT ENDS

Economical construction for general purpose dusting.

REINFORCED STITCHING

Add reinforced stitching on easily-wearing parts for extended service life.

BACKING DESIGN

Backing for easy attaching and detaching from the frame helps improve cleaning efficiency.

LAUNDERABILITY

Laundryability is the number of times a dust mop can be laundered and dried before it becomes worn out, or is under-performing.

Synthetic and blended dust mops have the highest laundryability.

DURABILITY

Durability is indicated by the length of time that passes before it is necessary to replace a worn dust mop.

Synthetic and blended Mops have the highest durability.

Antimicrobial fiber mops are more durable thanks to their capability to inhibit the growth of bacteria, reduce odor and prevent fading.

DUST PICK UP

Dust Pick-up Performance means the mop's capacity to pick up dirt and dust from the floor.

Microfiber dust mops have the best dust pick-up performance.

NAELC® QUICK CONNECT HANDLES

PRODUCT FEATURES:

1. Lightweight aluminum construction.
2. Telescopic handle for cleaning high places.
3. 6415 can be used with TRUST threaded tools.

Quick-connect Adapter (6415)
can be used with
TRUST threaded tools

NAELC® WET MOPS

PRODUCT FEATURES:

1. 100% superfine fiber.
2. Special handling mop surface (6501) effectively cleans stains from floor surfaces.
3. Compared with a traditional mop, it reduces 95% of the chemical usage.
4. Compared with a traditional wet mop, it saves 90% water.
5. It has a longer service life and higher cleaning efficiency when used together with a bleach and water solution.
6. Without bleach the mops can be repeatedly washed up to 500 times, or up to 200 times when used together with bleach.
7. Washable in water up to 93°C without bleach solution.
8. Various mop colors available to help reduce the risk of cross contamination between work areas.

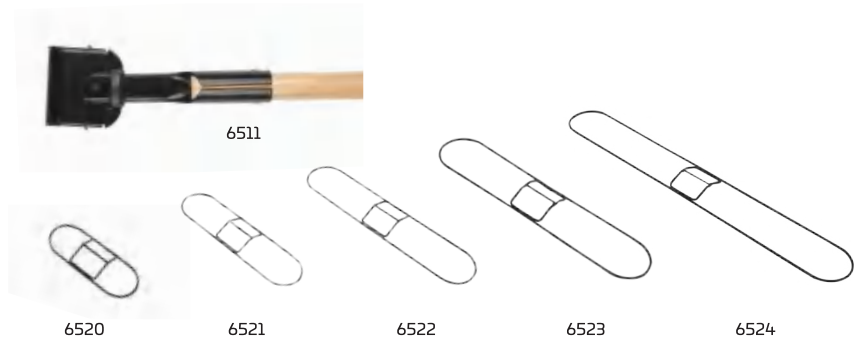

Innovated blue rigid string to remove stubborn stains effectively

MICROFIBER CLEANING SYSTEM

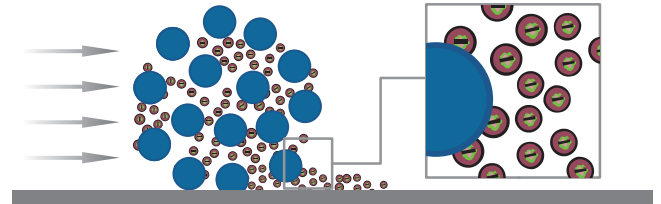

MICROFIBER TECHNOLOGY

Microfiber is an extremely thin thread - 10,000 meters of which weighs just 1 gramme! By way of comparison: microfibers are twice as fine as silk fibers (the thinnest natural fiber), 3 times finer than cotton fibers and 200 times finer than a human hair. As a result, they offer a much greater "contact surface" for dirt absorption than the fibers commonly used in mops and cloths.

Due to their fineness, microfibers develop a mechanical cleaning action even in the micropores of surfaces which cannot be registered by the human eye. They easily capture dirt thanks to their hair-like scaly structure.

ORDINARY FIBER
leaves dirt behind after cleaning

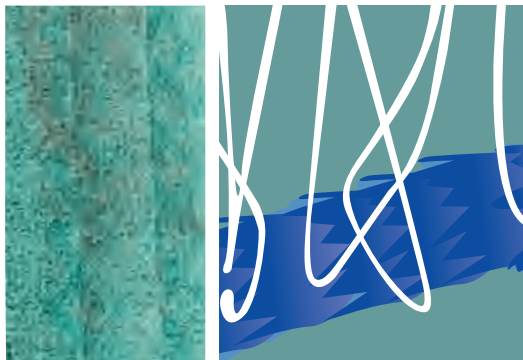

MICROFIBER
wipes away more than 99.99% of bacteria and dirt

Proven Performance To Ensure Healthy, Safe Environments

- Superior microfiber proven to remove microorganisms
- Helps reduce cross-transmission
- Withstands up to 500 commercial launderings

The high-quality microfiber amazing cleaning results, so that the floor becomes more bright.

Premium superfine fibers make your floor brighter

Increase the cleanliness of floors by 45% when compared to regular mops.

25% better cleaning effects than traditional microfiber dust pads

Sustainable Development Low Cost and High Benefits

Economic Return: Use with water only. Save the cost of chemical detergent by 90%. Cut the cost for disposable items and relevant garbage disposal expense.

Social Welfare: Improve the health and safety of operators by eliminating the use of chemical detergents.

Environment Benefit: Reduce pollution to the environment by reducing the consumption of water and avoiding the use of chemical detergents.

Effectively removes over 99.9% of bacteria and dirt with less water (only 1.5L for every 250 m².)

U-RAG® MICROFIBER CLOTHS

PRODUCT FEATURES:

1. Double finished edges add durability.
2. Durable construction withstands more than 500 launderings.
3. Allows for a sterilization in 100°C hot water without bleaching agent.
4. Color coded products help reduce cross-contamination by differentiating area of use.

Model	Description	Dimensions	Capacity	Color	Pack

BROOMS AND BRUSHES

BROOMS AND BRUSHES COMPONENTS

To improve cleaning productivity it is important to select the correct brooms and brushes to suit the floor material and the kinds of dirt. TRUST provides you with a wide range of brush heads and bristles to suit all kinds of floors.

BLOCK STRUCTURES

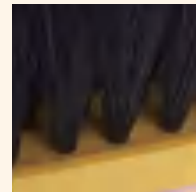

PLASTIC FOAM BLOCKS

Lightweight, textured surface, durable, resists splitting, deforming and decaying, non-absorbent, extended service life.

WOODEN BODIES

Conventional appearance, resists splitting, vulnerable to decay and mildew.

INJECTION-MOLDED BLOCKS

Durable, resists splitting, deforming and decaying, non-absorbent, resists bacteria, extended service life.

BRISTLES - NATURAL MATERIALS

HORSEHAIRS

The ends are subject to special treatment to resist breaking and add durability; Resists scratching even on smooth and polished floor; Not fit for applications on oily or warm surfaces.

PALM LEAVES

Palm leaf fibers of medium to high stiffness are easy to restore to their original form after use; Fit for use on either wet or dry surfaces.

TAMPICO FIBERS

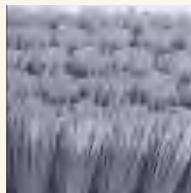

Soft and medium stiffness Tampico fibers are easy to restore to their original form after use; Resists heat, alkaline, solvents and acid; Fit for use on either wet or dry surfaces.

BRISTLES - SYNTHETIC FIBERS

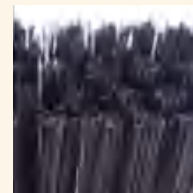

NYLONS

Very durable and resistant to wear or breaking; Bristles are easy to restore its original form after operation; Resists stain, fade or odor; Fit for use on either wet or dry surfaces; Resists alkaline and most solvents.

POLYVINYL CHLORIDES

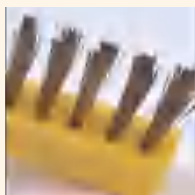

Very durable and resistant to wear or breaking; Bristles easily restore to their original form after use, resists stain, water and oil solvents; Not fit for use on residential premises or oily surfaces.

POLYPROPYLENES

Very durable and resistant to wear or breaking; It will neither pollute the floor, nor fade or absorb odors. Resists solvents, acid, oil, bacteria. Fit for use on either wet or dry surfaces.

BRISTLES - METAL WIRES

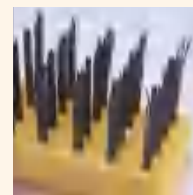

COPPER

Resists wearing, won't leave scratches on even hard surfaces; Will not rust; Best for cleaning surfaces of metal or brick surfaces which need to be protected from scratching.

STAINLESS STEEL

Resists wearing, water and chemical solutions. Will not rust; Easy to restore its original form after use; Best for tough cleaning jobs such as removal of residues on metals or other persistent dirt.

STEEL BRISTLES

Resists wearing or corrosion; Easy to restore its original form after operation; Best for tough cleaning jobs such as removal of residues on metal or bricks.

BROOMS AND BRUSHES

ANGLE BROOMS

PRODUCT FEATURES:

1. Ideal for cleaning hard-to-reach areas.
2. Long-lasting stain-resistant Polypropylene bristles.
3. 6623 body comes with 2 handle attachment positions for 2 different cleaning purposes.
4. 6624 cleans medium-sized rubbish, such as fine sand across large cleaning areas.
5. Handle is sold separately.

Model	Description	Dimensions	Capacity	Color	Pack
6613	Angle Broom, PP Fill	29.0cm	N/A	YEL	12
6621	Angle Broom with Handle, PET Fill	19.0cm	N/A	YEL, BLA	6
6622	Angle Broom, PP Fill	30.0cm	N/A	YEL	12
6623	Angle Broom, PET Fill	32.0cm	N/A	BLA	12
6624	Angle Broom with Handle, PET Fill	48.0cm	N/A	BLA	12

FINE FLOOR SWEEPS

PRODUCT FEATURES:

1. Designed to pick up the finest debris.
2. Ideal for highly polished or waxed floors.
3. Two-threaded handle holes on either side of block for even wear.
4. Available in PET or polypropylene, horsehair, Tampico blend.
5. Handle is sold separately.

Model	Description	Dimensions	Capacity	Color	Pack
6632	Plastic Foam Block, Fine Floor Sweep, PET Fill	45.5cm	N/A	YEL, BLA	12
6633	Plastic Foam Block, Fine Floor Sweep, PET Fill	61.0cm	N/A	YEL, BLA	12
6634	Hardwood Block, Fine Floor Sweep, PET Fill	92.0cm	N/A	LAC	2
6642	Plastic Foam Block, Fine Floor Sweep, Tampico Fill with Horsehair Border	45.5cm	N/A	YEL, BLA	12
6643	Plastic Foam Block, Fine Floor Sweep, Tampico Fill with Horsehair Border	61.0cm	N/A	YEL, BLA	12
6644	Hardwood Block, Fine Floor Sweep, Tampico Fill with Horsehair Border	92.0cm	N/A	LAC	2

MEDIUM FLOOR SWEEPS

PRODUCT FEATURES:

1. Designed to pick up dirt from multiple floor surfaces.
2. Long-lasting polypropylene and natural Tampico bristles are designed to remove heavier dirt and debris on both rough wood and smooth floor surfaces.
3. Two-threaded handle holes on either side of block for even wear.
4. Available in polypropylene, Tampico, or PET+PP blend.
5. Handle is sold separately.

HEIMDALL® BABY CHANGING STATIONS

PRODUCT FEATURES:

1. Wide table is equipped with adjustable seat belts enhancing safety and reliability.
2. All plastic web structure ensures strength and durability.
3. Die cast molding is convenient for hanging accessories.
4. Storage units at the top of the table are convenient to place baby care products.
5. Closed width is only 10.2cm, saving space.
6. Table is equipped with handle, convenient to open.
7. Built-in shelf and liner storage.
8. Microban® antibacterial technology effectively inhibits bacterial growth and odor generation.
9. Meeting the standards of ASTM F2285 and EN 12221-1.

8021

8023

MICROBAN® ANTI-BACTERIA PROTECTION TECHNOLOGIES

1. Microban® anti-bacteria technologies provide full protection and resist odor and stain due to bacteria.
2. Microban® anti-bacteria ingredients have been added to the baby changing station during its production for permanent protection.

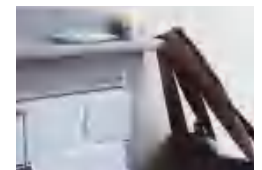

Plastic sample without Microban® anti-bacteria ingredients.

Plastic sample with Microban® anti-bacteria ingredients.

Innovative Designs

TRUST platform trucks and utility carts deliver transport solutions to meet the demands of every environment.

Robust construction resists distortion, dents, breakage, rust and decay

Tough, resilient surface absorbs impact and provides quiet operation. Virtually maintenance-free; resistant to most chemicals, impervious to water damage, and can be easily cleaned.

Conventional metal trolleys are susceptible to dents and rust.

Conventional wooden trolleys are susceptible to splinters and rot

Transport Materials Effectively and Safely

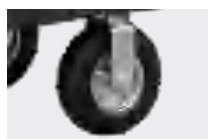

The handle on the cart is adjustable to fit your height and reduce muscle strain.

Castors meet exacting demands

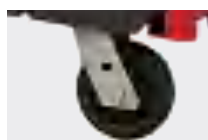

Castors are optimized for each product through repeated testing to provide the most effective and durable material transport solutions.

Thermoplastic Rubber

MOBILE WORK CENTERS

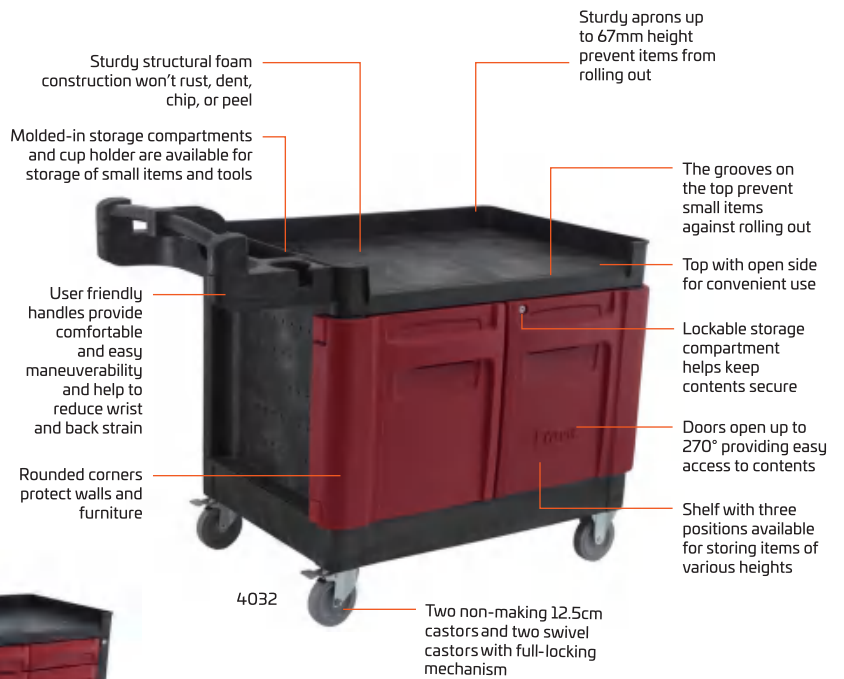

BITBAR® MOBILE WORK CENTERS

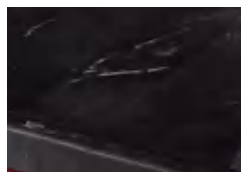

PRODUCT FEATURES:

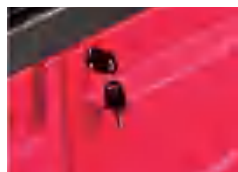

1. Innovative design for easy transportation of any item.
2. Sturdy structural foam construction won't rust, dent, chip, or peel.
3. Molded-in storage compartments and cup holder are suitable for storage of small items and tools.
4. User friendly handles provide comfortable and easy maneuverability.
5. 12.5cm non-marking castors (two fixed and two swivel with full braking mechanism) ensure easy maneuverability.
6. Full extension metal drawers with ball bearing slides are available.

The top has open-side to enable convenient use

The grooves on the top prevent small items against rolling out

Lockable storage compartment helps keep contents secure

Sturdy aprons up to 67mm height prevent items against rolling out

Doors open up to 270° provide easy access to content

LADDER CARTS

PRODUCT FEATURES:

1. For storing and moving 1.8 m ladder without damaging walls, doors or elevators.
2. The cart body is made of commercial grade plastic and galvanized steel. Maximum load up to 250kg.
3. Compact design enhances the operability of the cart, and takes up less space.
4. Cart is ergonomically designed to offer a comfortable working height.
5. The cart is for storage of ladders and other long objects, and fits for a variety of work environments.

Lock rail to easily secure the ladder in place

Tool Holder provides a convenient location for small tools

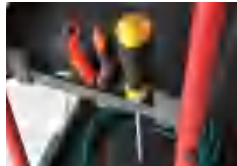

4051

Sturdy structural foam

Two non-marking 12.5cm castors and two swivel castors with full-locking mechanism

Tool case can be used as a worktable once turned over

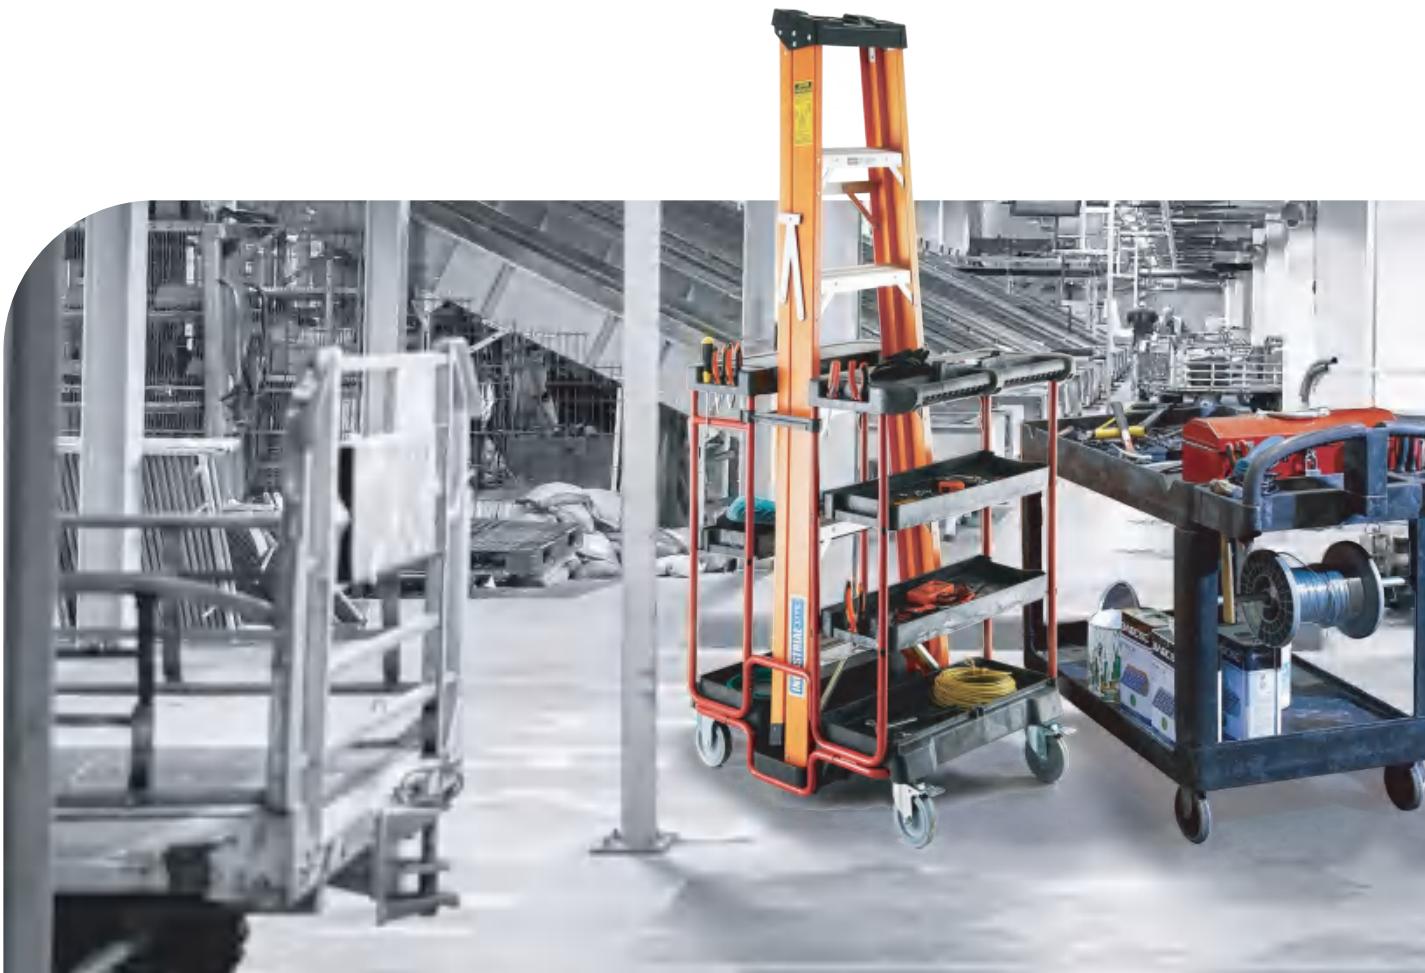

Tool Holder allows easy access to small tools

Unlock the rail to remove the ladder easily

PLATFORM TRUCKS

CASTORS SELECTION GUIDE

TRUST carts and trucks use top quality castors to meet every demand.

PP Castors

PP castors are easier to move than soft castors. They are non-marking, resistant to impact and chemical corrosion, and will neither slide off course, nor suffer damage from metal debris or nails under load. Excellent on concrete, wood, carpet and steel surfaces.

Pneumatic Castors

Ideal for fragile goods. Allows the trucks to run quietly on uneven rough surfaces as if they are moving across a soft cushion. Excellent on nearly all surfaces, including smooth concrete and rough gravel surfaces.

TPR Castors

TPR castors help reduce shock, protect the floor and run quietly. Excellent on tiles, Terrazzo, wood, smooth concrete, and carpets.

CASTORS PERFORMANCE GUIDE

Advanced Structural Foam Technology

- New technology, low pressure injection molding has no internal stress.
- Optimized composite structure of surface and core layers provides improved bend resistance per cross-section and increased stiffness of structural components.
- Honeycomb core layer has good cushioning performance and better impact resistance.
- Blend structure of plastic and metal has the carrying capacity 50-60% higher than that of traditional products.

World-class Durability

- When it comes to durability TRUST carts outperform industry peers.
- TRUST platform trucks have a unique design to ensure a long life and to make the job of operators easier.

Multiple Solutions

- We offer multiple products in different sizes to meet a wide variety of demands.

PLATFORM TRUCKS

OEASY® PLATFORM TRUCKS

PRODUCT FEATURES:

1. Perfect for transporting heavy loads in any environment.
2. User friendly handles help to maneuver the cart and ensure the safety of operators.
3. Molded-in structure adds strength and durability, and prolongs the service life.
4. Textured surfaces for non-skid and safe transporting.
5. Grooves close to edges help prevent small items from rolling out.
6. Notches on both sides are for secure latch of items.
7. Flexible fixing clip helps to prevent accidental release of handle while allowing easy disassembly.
8. Durable Powder-coated steel handle.

NESTABLE PALLETS

PRODUCT FEATURES:

1. Structural foam molded handles ensure strength and durability.
2. Nestable stacking, easy to clean, light weight.
3. Made from HDPE, which is recyclable and thus offers a low cost.
4. Materials comply with the requirements of domestic and foreign regulations on the international Food and Drug Sanitation regulations.

PNB1210

Stacking coefficient (2.2), to save storage space of the pallet

Designed for **easy entry of forklift** to save the time and make job simple

Vents are available on areas prone to water accumulation, so as to eliminate the possibility of water accumulation even when kept in open air

Model	Description	Dimensions	Fork high	Load (Static/Dynamic)	Color
PNB1111	Nestable Pallet	110.0 × 110.0 × 14.7cm	9.5cm	2500kg / 1000kg	BLA
PNB1208	Nestable Pallet	120.0 × 80.0 × 14.7cm	9.5cm	2000kg / 1000kg	BLA
PNB1210	Nestable Pallet	120.0 × 100.0 × 14.8cm	9.8cm	2500kg / 1000kg	BLA

SHELF PALLETS

PRODUCT FEATURES:

1. Structural foam molded handles ensure strength and durability.
2. Easy to clean, light weight.
3. Made from HDPE, which is recyclable and thus offers a low cost.
4. Integral double-sided plastic pallet structure suitable for stacking, shelving systems and cargo transportation.
5. Designed for cleanliness and improved sanitation helping to reduce cleaning frequency.
6. Pallet design is CAE optimized - lightweight with increased load capacity.

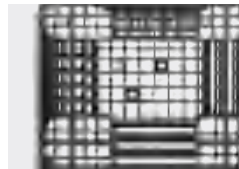

PRB1210

Designed for **easy forklift entry** to save time and reduce the possibility of damage

The **solid, extra-thick base ribs** are arranged to increase strength of pallet base, thus enhancing its shelving and stacking durability

The **grid structure** allows for easy and simple cleaning, and eliminates the problem of water accumulation even when stored in the open

Model	Description	Dimensions	Fork high	Load (Static/Dynamic)	Color
PRB1210	Shelf Pallets	120.0 × 100.0 × 16.7cm	9.4cm	13500kg / 2300kg	BLA

STACKING PALLETS

PRODUCT FEATURES:

1. Structural foam molded handles ensure strength and durability.
2. Easy to clean, light weight.
3. Made from HDPE, which is recyclable and thus offers a low cost.
4. Pallet design is CAE optimized - lightweight with increased load capacity. Patented leg design for easy servicing.
5. All-plastic structure and smooth surfaces reduce the possibility of damage to products.
6. Materials comply with the requirements of domestic and international Food and Drug Sanitation regulations.

PSB1210

Patented detachable legs can be easily replaced if the pallet is partially damaged

The round corner of the leg and the beveled angle of the top and base plates are designed for **easy operation of forklifts**

Extra-large area base plate ensures maximized contact area between the material and the plate to enhance stacking stability

Model	Description	Dimensions	Fork high	Load (Static/Dynamic)	Color
PSB1210	Stacking Pallet	120.0 × 100.0 × 14.9cm	7.6cm	4500kg / 1200kg	BLA

HEAVY-LOAD BULK CONTAINERS

PRODUCT FEATURES:

1. Structural foam molded construction ensures strength and durability.
2. Easy to clean, lightweight.
3. Provides reliable protection for contents when used in picking, assembling, processing, warehousing and logistics operations in a variety of industries.

Large size flip door for easy loading and unloading of cargo

Top cover with drainage and locking functions. Superior durability. Acts to prevent dust contamination of the contents.

Secure stackability maximizes warehouse space without the use of racking

Bulk containers can be folded to save storage space and reduce transport cost

Model	Description	Container External Dimension	Container Internal Dimension	Load	Color
BCHA1210-09	Heavy-load Bulk Container	120.0 × 100.0 × 87.1cm	111.8 × 91.8 × 73.0cm	788kg	BLA

Improved Food Services

Our innovative products enhance food freshness, reduce costs, and improve service delivery.

Sustainability Commitment

Exceptional product design, sound recyclability and durability, and the use of environmentally friendly materials are our commitment to environmental sustainability.

Safety Commitment

Our products meet food preparation, storage and transport industry standards.

HACCP

HAZARD

ANALYSIS

CRITICAL

CONTROL

POINTS

What is HACCP

HACCP, which stands for Hazard Analysis Critical Control Points, is an internationally recognized method of identifying and managing food safety related risk. It is a management system in which food safety is addressed through the analysis and control of biological, chemical, and physical hazards from raw material production, procurement, and handling, to manufacturing, distribution and consumption of the finished product.

There are seven key principles in food safety:

- Hazard Analysis
- Critical Control Points
- Critical Limits
- Critical Control Monitoring
- Corrective Action
- Procedures
- Record Keeping

The seven HACCP principles are included in the international standard ISO 22000 FSMS 2005 and are implemented in many Food Safety Programs all around the world.

As a leading supplier to the food service industry, our products contribute to HACCP certification. We offer a full range of solutions from material handling to ingredient storage, cooking, transporting, waste management and cleaning to help you maintain food safety in your daily workflow.

Material Handling

Trust utility carts and platform trucks allow for fast and efficient handling, which ensures food quality and reduces waste.

Food Storage

Use our storage bins and containers to ensure that ingredients are dry, safe and free from external contamination.

Cooking

Food pans make it easier to distribute food and measure portions accurately.

Food Transporting

Our insulated boxes maintain their contents at a constant temperature during transport, ensuring food quality.

Waste Management

Foot-operated pedal waste bins to avoid hand contact with contaminants and prevent cross-contamination.

Cleaning

Microfiber cleaning tools for efficient and fast cleaning and disinfection.

FOOD MATERIAL STORAGE BINS

PRODUCT FEATURES:

1. Designed with a connected lid and a separate spoon to enable access to food materials with only one hand, for higher work efficiency.
2. Designed with a transparent lid to quickly identify the type of the contents and allows for easy inventory management.
3. Smooth walls assist easy cleaning without leaving behind any dirt.
4. All-plastic web structure ensures strength and durability.
5. The lid is easy to open for higher work efficiency.
6. Complies with NSF standards.

SHELF-TYPE RAW FOOD MATERIAL CONTAINERS

PRODUCT FEATURES:

1. A space-saving shelf storage system that provides easy access to raw food materials when stacked.
2. Specially designed sliding lid and spoon allow access to raw materials with one hand, improving work efficiency.
3. Transparent lid for quick raw materials identification and inventory management.
4. "First in, first out" design to ensure food circulation and food quality.
5. Smooth inner wall for easy cleaning without leaving any dirt.
6. Durable plastic mesh structure.
7. The lid is easy to open, improving work efficiency.
8. Complies with NSF standards.

A storage system that can still allow you to **obtain raw food materials when stacked**, providing space utilization

Model	Description	Dimensions	Capacity	Color	Pack
8418	Shelf-type Raw Food Material Containers	38.1 × 29.8 × 21.6cm	10L	WHT	1

8434	2-Cup Measuring Spoon for 8419, 8420	11.7 × 13.0 × 13.3cm	0.48L	CLR	6

GOODS SHELVES

PRODUCT FEATURES:

1. Designed for storage of frozen, refrigerated or dry goods.
2. Structural foam molding ensures strength and durability.
3. The hollow pad offers maximized ventilation for perishable or dry goods.
4. The pad height meets NSF standards.
5. 4491 and 4493 Lock catches can lock shelves together for better stability.

Lock catches can lock goods shelves together for better stability

Model	Description	Dimensions	Load	Color	Pack
4491	Goods Shelf	91.0 × 53.3 × 30.5cm	680kg	BLA	1

4493	Goods Shelf	152.0 × 53.3 × 30.5cm	1360kg	BLA	1

THOR® FOOD STORAGE BOXES

PRODUCT FEATURES:

1. A must-to-have container for storage and moving.
2. Ribs on the bottom prevents damage when dragged.
3. Ergonomic handles offer a comfortable grip and help prevent hand injuries.
4. Comes with a tight lid. An ideal choice for the storage of food.
5. Complies with European food safety standards and NSF standards.
6. Combine with dollies to carry heavy loads quickly and conveniently.

Model	Description	Dimensions	Capacity	Color	Pack
3011	Food Storage Box with Lid	70.8 × 43.4 × 27.2cm	53L	BLUE, GRAY, GRN, RED, YEL, WHT, CLR	6

4483	Totes Trolley	63.0 × 43.5 × 18.5cm	N/A	BLA	1

THOR® STACKABLE FOOD STORAGE BINS

PRODUCT FEATURES:

1. For cost-effective storage and transportation.
2. Fits 120 × 100cm pallets with no overhang.
3. Nestable for efficient storage and transport.
4. Stackable with and without lids.
5. All-plastic construction will not rust, dent, chip, or peel.
6. Rounded corners and smooth surfaces are easy to clean.
7. Complies with the requirements of NSF #2.

Staggered stackable

Model	Description	Dimensions	Capacity	Color	Pack
3021	Stackable Food Storage Bin	59.2 × 39.2 × 27.0cm	40L	BLUE, GRN, RED, YEL, WHT	6
3022	Stackable Food Storage Bin	59.2 × 39.2 × 36.0cm	55L	BLUE, GRN, RED, YEL, WHT	6
3023	Lid for 3021/3022	60.0 × 40.0 × 3.3cm	N/A	BLUE, GRN, RED, YEL, WHT	6

THOR® SQUARE FOOD CONTAINERS

PRODUCT FEATURES:

1. Square shape offers up to 27% more capacity than round containers.
2. Designed with an ergonomic handle for a smooth and comfortable grip.
3. Reinforced rims add strength and durability.
4. Thick walls up to 4 mm add strength and durability.
5. Bottom hand grips of 30 mm width assist in emptying.
6. Tight fitting lids help protect the contents.
7. Square dollies are available to ensure easy mobility and maneuverability of heavy loads.

Model	Description	Dimensions	Capacity	Color	Pack
1231	THOR® Square Food Container	54.6 × 54.6 × 57.2cm	100L	WHT	6
1233	THOR® Square Food Container	59.7 × 59.7 × 73.0cm	150L	WHT	4
1812	THOR® Square Dolly for 1231/1233	43.8 × 15.9cm	N/A	BLA	2
TOPS					
1661	THOR® Lid for 1231	55.9 × 55.9 × 5.1cm	N/A	WHT	6
1663	THOR® Lid for 1233	61.0 × 61.0 × 5.1cm	N/A	WHT	4

LARGE FOOD CONTAINERS

PRODUCT FEATURES:

1. Suitable for delivering and storing raw food materials.
2. Rotomolded, industrial-grade strength, transports heavy loads with ease.
3. Metal frame provides durable support.

Model	Description	Dimensions	Load	Color	Pack
4710	0.2 m ³ Large Food Box	98.0 × 72.0 × 76.0cm	135kg	WHT	2
4711	0.3 m ³ Large Food Box	114.5 × 75.0 × 88.0cm	180kg	WHT	2
4714	0.4 m ³ Large Food Box	117.0 × 84.0 × 86.0cm	230kg	WHT	2
4715	0.5 m ³ Large Food Box	125.5 × 92.0 × 94.0cm	230kg	WHT	2

THOR. FRESH FRUITS AND VEGETABLES STORAGE BINS WITH LID AND CART

PRODUCT FEATURES:

1. An ideal solution for storage, washing, drying and to maintain the flavor of fresh fruits and vegetables.
2. Designed with an in-built tank to collect water flowing through the filter disc.
3. Equipped with a handy detachable cart for easily transporting the bin from an unloading area to the cleaning or cold storage areas.
4. Accompanied with a tightly-fit lid to keep fruits and vegetables fresh and clean.
5. Seamless construction and smooth interior walls ensure easy cleaning.
6. For storage of oranges, strawberries, tomatoes and other fruits and vegetables.

8421

Model	Description	Dimensions	Capacity	Color	Pack
8421	Fresh Fruits and Vegetables Storage Bin with a Lid and a Cart Storage Box with Lid	57.2 × 85.1cm	75L	WHT	1
8422	Fresh Fruits and Vegetables Storage Bin with a Lid and a Cart Storage Box with Lid	63.5 × 97.8cm	121L	WHT	1

THOR. ICE BUCKETS

PRODUCT FEATURES:

1. Ensures safe delivery of ice.
2. All-plastic construction will not rust, chip, or peel; resists dents.
3. Comes with an ergonomic rounded handle providing a comfortable grip.
4. Reinforced rim adds to strength and durability.
5. Bottom hand-grips of 30 mm width assist in emptying.
6. Bucket surface is printed with the name of the contents for easy recognition.
7. Complies with NSF #2 inspection standards.

8432

Model	Description	Dimensions	Capacity	Color	Pack
8431	Ice Bucket	40.0 × 44.0cm	38L	WHT	6
8432	Ice Bucket	49.0 × 57.0cm	75L	WHT	6

FOOD PANS

PRODUCT FEATURES:

1. Makes preparing, cooking, serving and storing effortless.
2. No Bisphenol A, effectively preventing food safety risks.
3. Resistant to rust, dent, twist, odor and cross contamination.
4. Materials are inert reducing the potential for chemical or acid reactions.
5. Effectively prevent cross-contamination.
6. Non-stick feature makes cleaning easier.
7. Complies with the standards of EN 631-1.
8. Complies with the requirements of NSF #2.

COLD FOOD PANS

PRODUCT FEATURES:

1. Lessens the work load and operating costs for preparation, freezing, baking and steaming.
2. Temperature rated: -40°C to 100°C.
3. Steam table and microwave safe, not for use with an open flame.
4. Not as cool to touch as metal.

HOT FOOD PANS

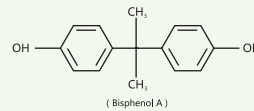

PRODUCT FEATURES:

1. Lessens the work load and costs of operation over preparation, freezing, baking and steaming.
2. Temperature rated: -40°C to 190°C.
3. Steam table well and microwave safe, not for use open flame.
4. Cooler to the touch than metal.

tritan™
from eastman

Tritan™ is a new generation of copolyester from the Eastman company having passed FDA certification.

1. Eastman Tritan does not contain Bisphenol A (BPA). BPA is not and has never been an ingredient or by-product of the production of Eastman Tritan™.
2. Eastman Tritan is transparent with a crystalline luster, light transmittance is greater than 90%, while haze is less than 1%.
3. Eastman Tritan is a tough and durable material that can maintain functional and aesthetic integrity over a long product life. Eastman Tritan compares favorably with PC in notched Izod impact tests. At 1/4" thickness, PC demonstrates low energy absorption and brittle failure, while Eastman Tritan continues to demonstrate high energy absorption (exceeding 15 ft-lb/in.) and ductile behavior.
4. Eastman Tritan has a higher glass transition temperature (Tg) than traditional copolyesters, which can provide a greater ability to withstand higher temperatures in dishwashers and other environments.

Bisphenol A (BPA), is used to synthesise PC and epoxy resin in industry.

BPA is an environmental health concern due to its widespread exposure as well as its potential toxicity. BPA is an endocrine disruptor which acts as an estrogen mimic. Evidence suggests that BPA affects circulating hormone levels, cardiovascular health, obesity, reproductive health in both males and females, hormone-driven cancers and neurobehavioral development in children. ⁽¹⁾

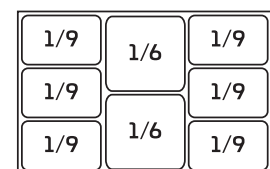

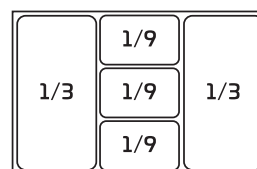

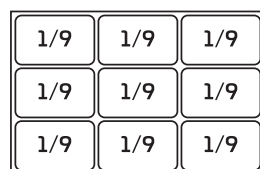

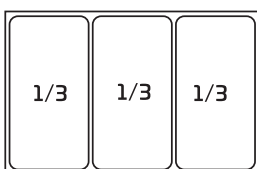

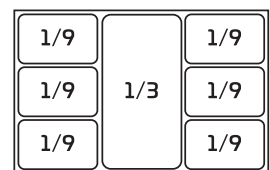

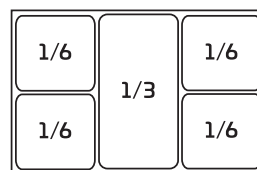

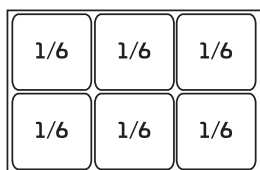

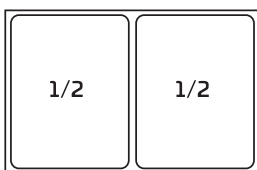

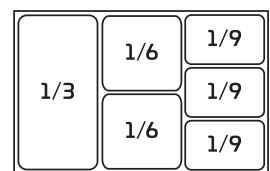

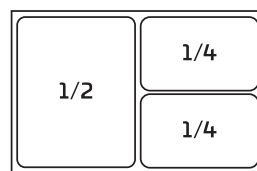

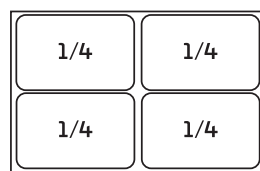

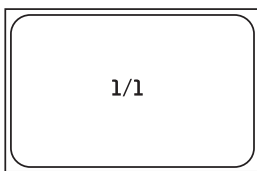

On Oct 18, 2008 Canada announced that bisphenol A is toxic chemical and became the first country in the world to rank it as such and prohibit from use PC food containers which contain bisphenol A. Norway, the United States, Sweden and other European and American developed countries also gradually began to ban the use of BPA in food containers.

COLD FOOD PANS

PRODUCT FEATURES:

1. Makes food preparation, cooking, serving and storing effortless.
2. Break resistant, won't rust, dent or twist.
3. Reduces potential of chemical or acid reactions and resulting food contaminations.
4. Effectively avoids cross-contamination.
5. Dishwasher and microwave safe.
6. Quieter, not as cool to touch and with less condensation than metal.
7. Non-stick surfaces for easy food debris removal and cleaning.
8. Complies with EN 631-1 standards.
9. Comply with the requirements of NSF #2.

POLYCARBONATE (PC) COLD FOOD PANS

PRODUCT FEATURES:

1. Significantly less cost than stainless steel.
2. Crystal clear.
3. Temperature rated: -40°C to 99.8°C.

POLYPROPYLENE (PP) COLD FOOD PANS

PRODUCT FEATURES:

1. The most economical option.
2. Semi-transparent, allows contents to be visible.
3. Temperature rated: -40°C to 70°C.
4. BPA free

FIRMGR[®] STORAGE SYSTEM

Trust offers two shelving storage systems for the hospitality industry comprising the Firmgre[®] and Firmgre[®] Modus storage systems. No matter your space or budget, we have a perfect solution for you! By choosing our storage system, you can achieve maximum cost savings, efficient use of space and meet hygiene, food safety and functionality standards.

1. Made from materials that are rust and corrosion-free.
2. Suitable for all kinds of environments, and can be used at temperatures between -40°C and 90°C.
3. Impervious to water, chemicals, salts, acid, alkali and humidity.
4. Maximizes storage space with shelves that are designed to share posts without losing overall load capacity.
5. Specially designed internal slots on the posts create a neat appearance and make the posts safer to hold.
6. Cleaning can be completed quickly without affecting storage capacity and utility.
7. Each shelf can be easily and individually adjusted to accommodate different items.

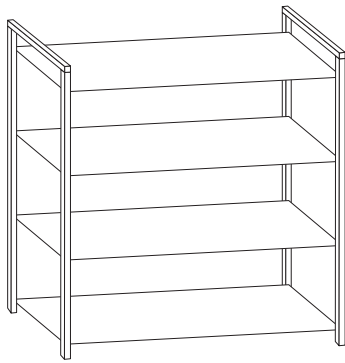

FIRMGR® CONFIGURATIONS

STARTER KIT

Complete set to build one 4-shelf unit:

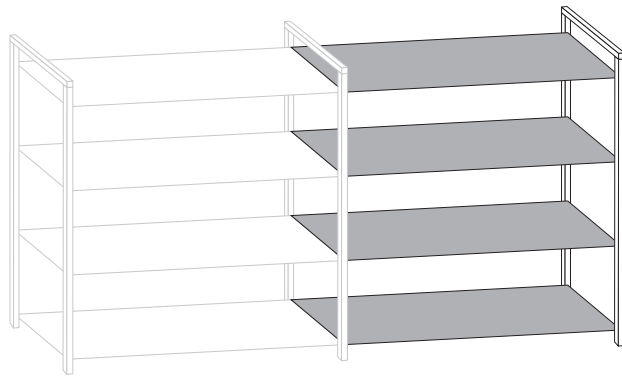

2 Post Kits 4 Shelf Kits

EXTENSION KIT

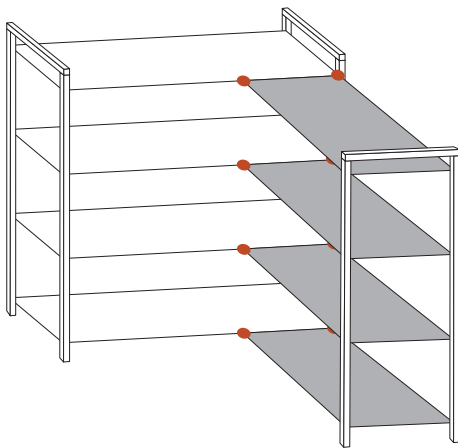

Extension set to add to 4-shelf units:

1 Post Kit 4 Shelf Kits

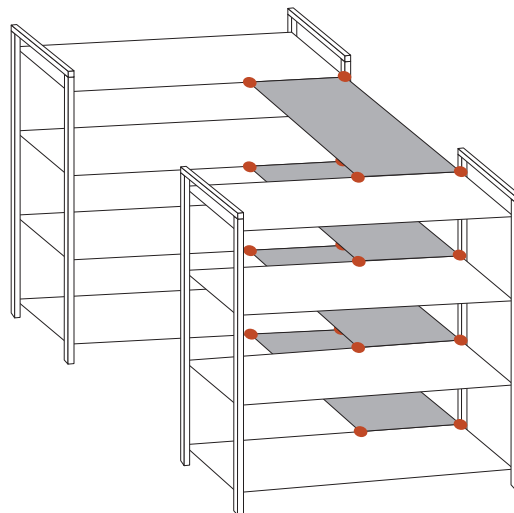

CORNER UNIT

(STARTER KIT + EXTENSION)

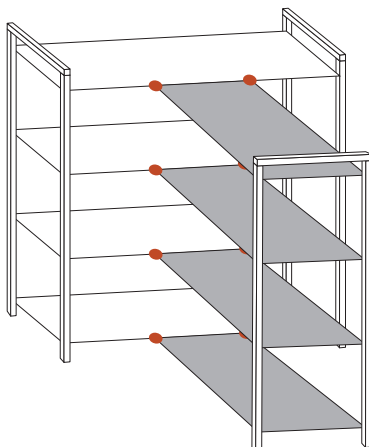

U-SHAPE UNIT

(2 STARTER KITS + 4 SHELF KITS)

T-SHAPE UNIT

(STARTER KIT + EXTENSION)

● CORNER CONNECTORS

Connect the shelves with Corner Connectors to turn difficult areas into more accessible storage spaces.

FIRMGRE® SYSTEM COMPARISON

	FIRMGRE® SYSTEM	FIRMGRE® MODUS SYSTEM
STORAGE AREA	Regular loading and unloading of medium to heavy products for high volume food service operations. 5-7 deliveries per week. Wet storage small freezer, cooler, warewashing area Dry storage bulk food, food service equipment, tableware/cutlery, linen products, goods	Regular loading and unloading of light to medium products for medium volume food service operations. 3-4 deliveries per week. Wet storage small freezer, cooler, warewashing area Dry storage bulk food, food service equipment, tableware/cutlery, linen products, goods
RECOMMENDED MARKET SEGMENTS	Hotels and entertainment venues, restaurants, fast food outlets, schools, colleges and universities, medical institutions, military institutions, convention centers, cruise ships, catering venues, corporate cafeteria, convenience stores and grocery stores	Hotels and entertainment venues, restaurants, fast food outlets, schools, colleges and universities, medical institutions, convention centers, catering venues, corporate cafeteria, convenience stores and cafes
LOAD CAPACITY (Please refer to the diagrams on the next page for detail)	Fixed shelf (Based on 610-1220mm length) 350kg load capacity per partition. Each shelf has a load capacity of 1400kg. Mobile shelves each shelf has a load capacity of 340kg. Corner, U-shaped and T-shaped shelves (Based on 610-1220mm length) 180kg on the 3 top partitions, 275kg on the bottom partition, 815kg per shelf.	Fixed shelf (Based on 760-910mm length) 300kg load capacity per partition. Each shelf has a load capacity of 1200kg. Corner, U-shaped and T-shaped shelves (Based on 760-1220mm length) 135kg on the 3 top partitions, 205kg on the bottom partition, 610kg per shelf.
SHELF LENGTH	610, 760, 910, 1070, 1220, 1380, 1530, 1830, 1980mm	760, 910, 1070, 1220, 1380, 1530mm
SHELF DEPTH	360, 460, 540, 610mm	460, 540, 610mm
POST HEIGHT	Fixed rack 1630, 1830, 2140mm Mobile rack 1780, 1980mm (including castors)	Fixed rack 1630, 1830, 2140mm

FREE FIRMGRE® DESIGN SERVICE

Trust offers a free shelving system design service to prepare your business's most cost-effective and space maximizing storage solution. Our consultants will plan a system design that addresses your space and storage needs.

Please email firmgre@trustcommercial.com with the following information. We will provide you with a proposal within 2 working days.

- Project Name
- Storage room type (freezer/refrigerator/ambient)
- Room size (L x W x H)
- Entrance location and dimensions
- Obstacles (condenser/pipe)
- Other preferences/requirements

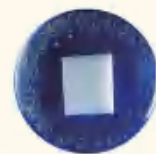

MICROBAN®

MICROBAN® ANTI-MICROBIAL PROTECTION TECHNOLOGIES

Microban® anti-microbial technologies provide full protection by working to destroy or inhibit the growth and reproduction of bacteria, mold and mildew.

Plastic sample without Microban® anti-microbial ingredients.

Plastic sample with Microban® anti-microbial ingredients.

*Microban® is the registered owner of Microban® trademark, and reserves all the rights. Microban® anti-microbial protection is not designed to protect users against disease causing micro-organisms and is not a substitute for routine cleaning.

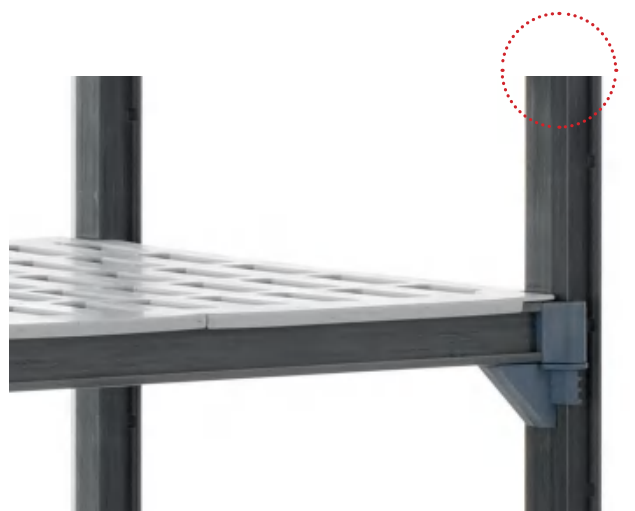

Easy clean vented shelf panels
Rust free and dishwasher safe

Maximises storage space
Share posts without losing overall load capacity

Easy to adjust
Shelves can be easily adjusted to suit the height of loads

Internal slots on posts
Creates a neat appearance, easy to clean, safer to hold

Rust and corrosion-free
Save on cost of repair and replacement

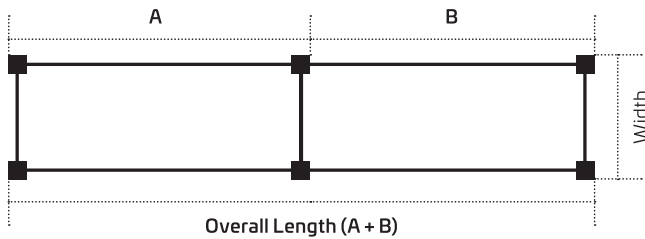

Easy adjustment
Each shelf can be easily adjusted to suit different stored products

FIRMGRE® MODUS STORAGE SYSTEM

FIRMGRE® Modus shelving is made of super strong composite material. They are lighter and stronger than ordinary metal shelving. The storage system is specially designed for storing light to medium-sized items in the freezer, refrigerator or utensil cleaning area.

1. Never rust and corrosion, lighter and stronger than ordinary metal shelves.
2. Suitable for all kinds of environments, and can be used at temperatures between -40°C and 90°C.
3. Won't affected by water, chemicals, salts, acid, alkali and humidity.
4. Maximizes storage space with shelves that are designed to share posts without losing overall load capacity.
5. Cleaning can be completed quickly without affecting storage capacity and utility.
6. Each shelf can be easily and individually adjusted to accommodate different items.

FOODSERVICE

EXCEBOX® INSULATED FOOD CARRIERS

Trust has a large selection of food delivery equipment, providing our customers a wide range of options. We will design the optimum system to help grow your business and build a loyal following for your brand, while maintaining food safety and quality.

Ensuring food safety and quality

When it comes to food processing every second is crucial. From the first moment of food preparation right through to delivery to the customer. Every step of the way, EXCEBOX® helps to keep food at the temperature it should be, hot or cold.

EXCEBOX® Insulated Food Carriers are suitable for a range of applications such as:

- Delivery of food materials and ingredients
- Counter-top storage for pickup or delivery
- Food delivery to the end user

Keeping employees safe

EXCEBOX® Insulated Food Carriers are made from high-tech materials with an ergonomic design, enhancing workplace safety for employees. Notable features include:

- Ultra lightweight construction
- Safe and sturdy carrying straps
- Specially designed carts for transporting bulk catering orders

Thermal insulation
Keeps food hot or cold for over 4 hours.

Ultra light
Made of EPP (Expanded Polypropylene Polystyrene - an environmentally friendly high-performance foam material) making your meal delivery incredibly easy.

High structural strength
Able to bear a large load while maintaining its shape and style.

Superior cushioning
Able to withstand significant impact without damage.

Dishwasher safe

Corrosion resistance
Not affected by oil, grease and most chemicals.

100% recyclable

Compatible with GN food pans
Ensures food safety and meets HACCP requirements for storage and transportation systems.

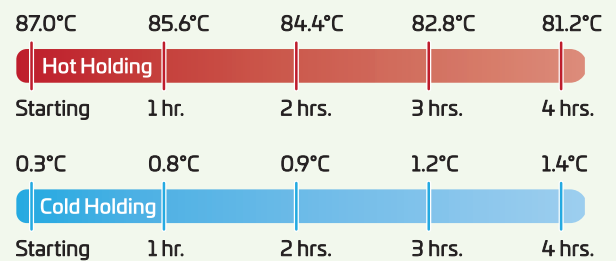

EXCEBOX® INSULATED FOOD CARRIERS

The EXCEBOX® System is the perfect solution for catering and food service operators. The System provides excellent thermal insulation ensuring appropriate food safety. They are made of environmentally friendly, high-performance insulation - Expanded Polypropylene Polystyrene (EPP) - and are incredibly lightweight, making your meal delivery incredibly easy.

The EXCEBOX® System is an affordable solution, which offers the durability needed to cope with frequent commercial use.

- Keeps food at a safe temperature for over 4 hours.
- Perfect for storing food waiting to be picked up
- Ideal for multiple stops or large events.
- Stackable.
- One of the most economical food transfer solutions.

Temperature Holding Performance

Note: Work best with food trays temperature range between 82 to 88°C.

Loading metal food trays above 120°C will damage the EXCEBOX® carrier.

FRONT-LOADING EXCEBOX®

PRODUCT FEATURES:

1. Beveled doors for easy door opening and closing.
2. Durable hinges and latches that allow the front loading EXCEBOX® to open up to 270° for easy access.
3. Built-in handles on all 4 sides, make it easy to carry.
4. Built-in condensation barrier helps stop dripping.
5. Use the built-in label area to keep plastic labels in place to easily identify contents or provide route directions.
6. Can be stacked securely to save space.

SCRAPPER/SPOON-SHAPED SCRAPPERS

PRODUCT FEATURES:

1. A multipurpose tool combining spoon, scoop and scrapper.
2. Body and handle are integrally molded to eliminate the possibility of coming off.
3. Seamless structure eliminates the retention of dirt and bacteria.
4. The convex design on the back of scrapper prevents the contact between the blade and the worktable for reducing the possibility of food contamination.
5. Traditional flat scrapper is for scraping; Spoon-shaped scrapper is used to scoop, dig and wipe.
6. All the handle and body are white.
7. Found in compliance with NSF # 2 inspection standards.
8. Dishwasher safe.

CUPCOMB® WAREWASHING SYSTEM

The CUPCOMB® warewashing system has been designed to maximise washing, handling and storage efficiency for restaurants, hotels, hospitals and commercial operations.

The system is engineered for maximum capacity and flexibility with a wide variety of racks and extenders to suit modern catering requirements. With the CUPCOMB system operators will save time, money and resources and help prevent breakage and loss.

As an integrated, fully sealed and mobile storage unit the CUPCOMB system is the optimum warewashing logistics system for catering operations: economical, safe and efficient.

The CUPCOMB® System comprises the CUPCOMB® Cover, CUPCOMB® Racks and CUPCOMB® Dolly to provide an integrated, fully sealed and mobile unit.

PRODUCT FEATURES:

1. Designed for maximum capacity per rack, reducing the number of washing cycles and ultimately saving time and money.
2. Engineered for better washing.
3. Enclosed racks and spacers prevent finger marking and keep dirt away.
4. Color-coded tray racks for easy inventory management.
5. Up to 6 different heights by adding extenders to the base rack.
6. Optional Quick Check Label Clips for easy content identification.
7. With the optional Dolly inventory can be moved easily and safely from one location to another.

CUPFORMS® FULL SIZE GLASS RACKS

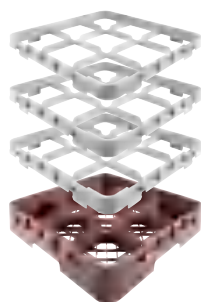

PRODUCT FEATURES:

1. Designed for maximum capacity per rack, reducing the number of washing cycles and ultimately saving time and money.
2. Engineered for better washing.
3. Enclosed racks and spacers prevent finger marking and keep dirt away.
4. Color-coded tray racks for easy inventory management.
5. Up to 6 different heights by adding extenders to the base rack.
6. Optional Quick Check Label Clips for easy content identification.
7. With the optional Dolly inventory can be moved easily and safely from one location to another.

CUPFORMS® HALF SIZE GLASS RACKS

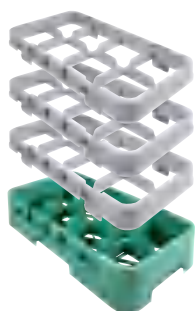

PRODUCT FEATURES:

1. Designed for maximum capacity per rack, reducing the number of washing cycles and ultimately saving time and money.
2. Engineered for better washing.
3. Enclosed racks and spacers prevent finger marking and keep dirt away.
4. Color-coded tray racks for easy inventory management.
5. Up to 6 different heights by adding extenders to the base rack.
6. Half-sized racks are useful for carrying lighter loads than full-sized racks and for handy storage of drinkware where space is at a premium.
7. Ideal for use with smaller under-bench dishwashers.
8. Optional Quick Check Label Clips for easy content identification.

ACCESSORIES

- The CUPCOMB® Cover fits neatly and securely over any CUPCOMB® Rack.
- Effectively seals the contents beneath preventing food and other contaminants from falling through. It also helps provides secure protection of the contents to reduce breakage. Use it with a CUPCOMB® Dolly for handy, portable and sanitary storage.
- Ideal for transporting stacked dish racks for high efficiency.
- Equipped with non-marking, heavy-duty castors that help to easily maneuver across various surface types.
- Heavy duty plastic construction ensures a long service life.
- Sturdy edges and angled side walls ensure excess water is collected in the Dolly base and not spread across floors when moving.
- Quick Check Label Clips aid efficiency by helping the user to choose the correct rack without the need to inspect the contents.
- 34 different types of pre-printed label clips are available (refer below).
- Label Clips can also be branded with a company logo.

HOW TO PICK THE RIGHT CUPCOMP® RACK

There is a size guide provided on page 327 of this brochure. Using the guide, you can choose the right CUPCOMP® rack which best suited to your drinkware.

DIAMETER

Place the glass upside down over the circular chart. Look down over the glass. Use whichever circle is of the largest diameter - either the glass base, body or rim to determine which compartment rack size the glass fits within.

HEIGHT

Use the vertical guide to determine the number of extenders that should be used. If the height of the glass is between two extenders, select the higher extender.

TOTE BOXES

TOTE BOXES

PRODUCT FEATURES:

1. Reinforced handles, bottom and ribs for added strength and durability.
2. Rounded corners for easy cleaning.
3. Commercial dishwasher safe.

8411	8411-01	Body	184
	8411-02	Top	
	8411-03	Transparent Cover	
	8411-04	Spoon Rack	
	8411-05	7.6 cm Dia Swivel Castor	
	8411-06	7.6 cm Dia Rigid Castor	
8412	8412-01	Body	184
	8412-02	Top	
	8412-03	Transparent cover	
	8411-04	Spoon Rack	
8412	8411-05	7.6 cm Dia Swivel Castor	184
	8411-06	7.6 cm Dia Rigid Castor	
8413	8413-01	Body	184
	8413-02	Top	
	8413-03	Transparent Cover	
	8411-04	Spoon Rack	
	8411-05	7.6 cm Dia Swivel Castor	
	8411-06	7.6 cm Dia Rigid Castor	
8418	8418-01	Top	185
	8418-02	Transparent Cover	
	8418-03	Divider plate	
8419	8419-01	Top	185
	8419-02	Transparent Cover	
	8419-03	Divider plate	
8420	8420-01	Top	185
	8420-02	Transparent Cover	
	8420-03	Divider plate	
8441	8441-01	Body	255
	8441-02	Cover	
	8441-03	0.9 L Insert	
8442	8441-01	Body	255
	8441-02	Cover	
	8442-01	0.7 L Insert	
8443	8441-01	Body	255
	8441-02	Cover	
	8443-01	0.5 L Insert	
8613	8613-01	Storage Rack Body (Specify Color)	230
	8613-02	Top (Specify Color)	
	8613-03	Round Aluminum Alloy Tube	
	8613-04	Square Aluminum Alloy Tube	
	8613-05	D Shape Aluminum Alloy Tube	
	176632	12.5 cm Dia TPR Swivel Castor w/Lock	
	176631	12.5 cm Dia TPR Swivel Castor	
	8614	8613-01	
8614	8613-02	Top (Specify Color)	230
	8614-01	Round Aluminum Alloy Tube	
	8614-02	Square Aluminum Alloy Tube	
	8614-03	D shape Aluminum Alloy Tube	
	176632	12.5cm Dia TPR Swivel Castor w/Lock	
	176631	12.5cm Dia TPR Swivel Castor	
	8615	8613-01	
8613-02		Top (Specify Color)	
8615-01		Round Aluminum Alloy Tube	
8615-02		Square Aluminum Alloy Tube	

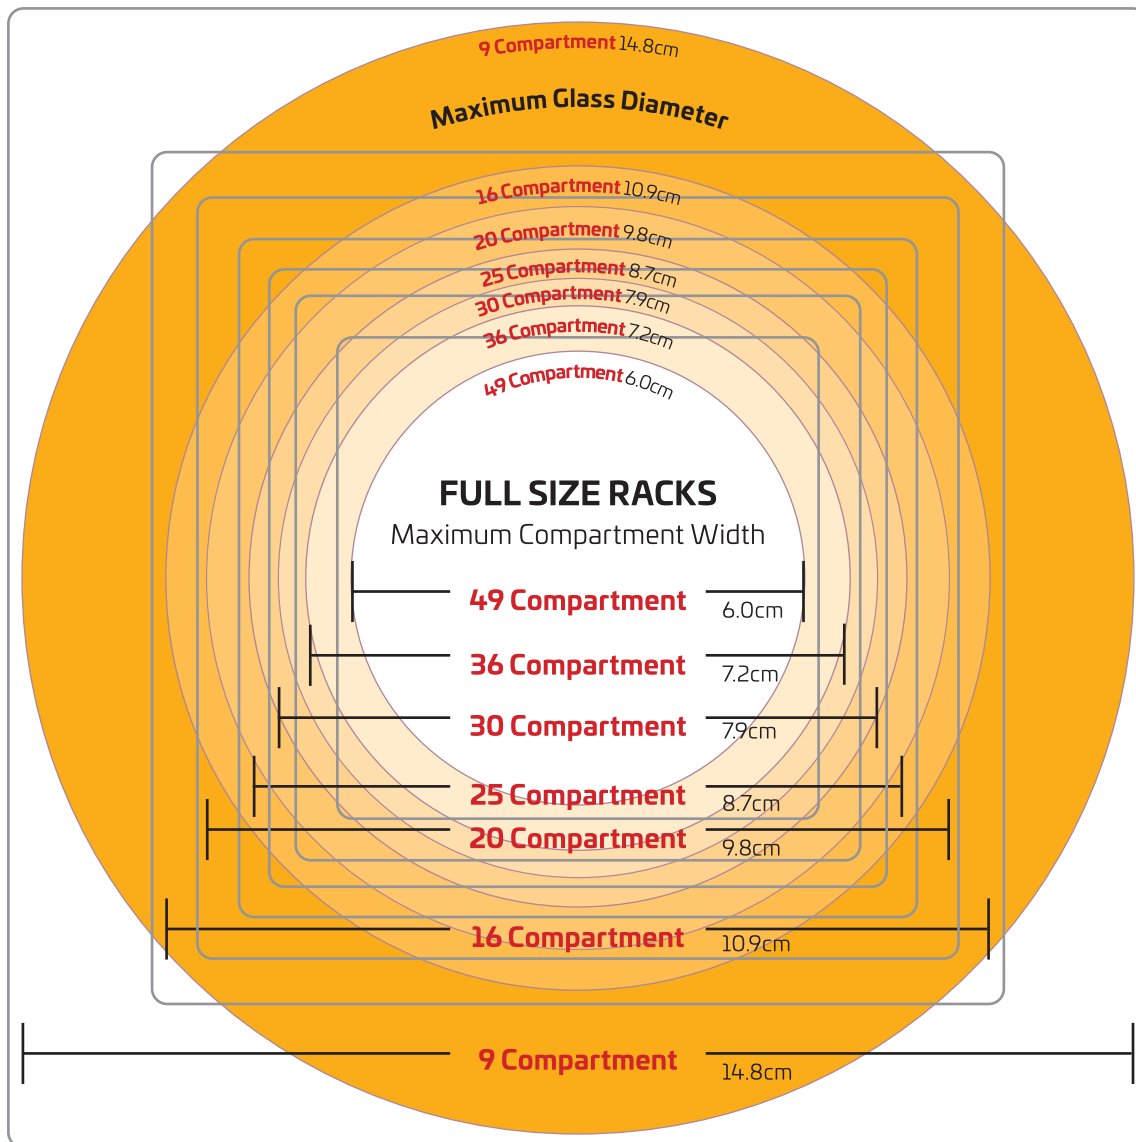

Fits	Part Number	Part Description	Page
8615	8615-03	D Shape Aluminum Alloy Tube	230
	176632	12.5 cm Dia TPR Swivel Castor w/Lock	
	176631	12.5 cm Dia TPR Swivel Castor	
8621	8621-01	Storage Rack Body (Specify Color)	230
	8613-02	Top (Specify Color)	
	8613-03	Round Aluminum Alloy Tube	
	8613-04	Square Aluminum Alloy Tube	
	8613-05	D Shape Aluminum Alloy Tube	
	176632	12.5 cm Dia TPR Swivel Castor w/Lock	
8622	8621-01	Storage Rack Body (Specify Color)	230
	8613-02	Top (Specify Color)	
	8614-01	Round Aluminum Alloy Tube	
	8614-02	Square Aluminum Alloy Tube	
	8614-03	D Shape Aluminum Alloy Tube	
	176632	12.5 cm Dia TPR Swivel Castor w/Lock	
8651	8651-01	Separation Column (with Bolt Assembly)	231
	8651-02	Knob	
	8651-03	Dust Cover	
	8651-04	12.5 cm Dia Swivel Castor w/Lock	
	8651-05	12.5 cm Dia Swivel Castor	
8888	8888-01	Rectangular Chassis	157, 228
	176640	10 cm TPR Flat Bottom Universal Wheel	
8889	8889-01	Rectangular Chassis	157, 228
	176640	10 cm TPR Flat Bottom Universal Wheel	

Stemware and Glass Sizing Reference Guide

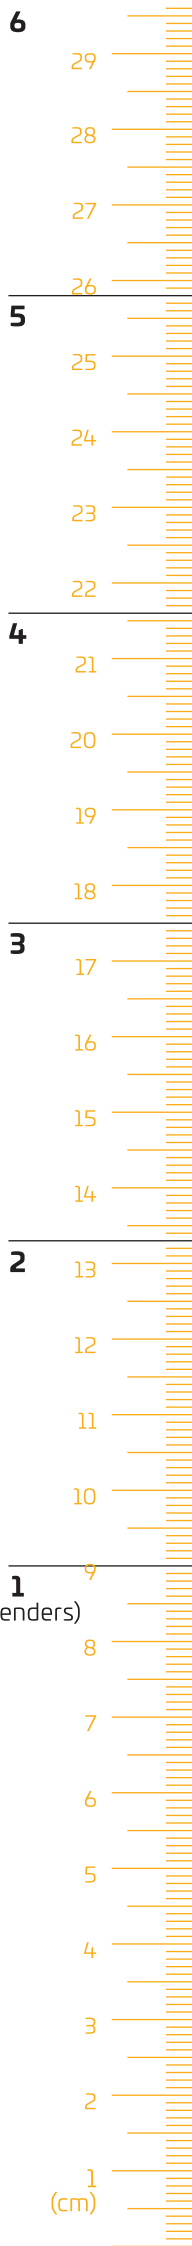

Use the vertical guide on the right to determine item height and the number of extenders that should be used.

Use the two circular guides to determine which rack should be used based on the diameter of the glass or stemware.
